# How Detox Footbath will help your patients

The Detox Footbath takes natural detoxification to the next level by enabling an alkaline environment within the body's own electrical field to improve overall wellness. It sensitively stimulates and balances the bio-energetic fields of the body, facilitating better organ function and auto-detoxification from preservatives, harmful chemicals, pesticides, yeast, and other harmful toxins. As the electric polarities transform the acidic nature of one's body into a healthy alkaline state with a more balanced pH, patients automatically experience a host of benefits:

**Increased energy**

**Improved sleep**

**Clearer thinking**

**Better organ function**

**Boosted immune system**

**Auto-detoxification**

**Fewer aches and pains**
